

# Protection from the ground up! Synthetic Turf Fall Pad System

## Superior Drain System

Fast, efficient drainage system ported directly to sub-surface

## Channeled Deck

Channeled deck insuring-immediate dissipation of water, plus grid helps make ease of installation & configuration

## Thermal Properties

Ultra stable expansion & contraction, even under extreme weather

## 100% Fully Recyclable

Multiple life-cycle use, and full circle recyclability

## Protection & Performance

Gradient Energy Reduction system creating maximum impact protection performance in all conditions

## Health & Safety

100% Non-absorbng anti-bacterial properties mitigates potential for bacterial or fungal growth

ASTM Tested FREE of all heavy metals, toxin, plus PFAS free

Information on this sheet, is true, to the best of our knowledge at time of testing & manufacturing. All testing was performed by independent certified ASTM lab. Additional information (e.g. additional characteristics, specific (independent) reports or statistical analysis) is available upon request. Turf Core is allowed to change this information and/or the product (without notice) and assumes no legal responsibility for use of and/or reliance on this information. It is the sole responsibility of purchaser to conduct their own independent testing to insure physical property/characteristics is compliant with intended use.
